Stressless® living – it's all about comfort

There are many reasons why Stressless® is the most comfortable line of furniture in existence. We could tell you how each recliner, sofa and home theater piece is innovatively designed from the inside out for unmatched comfort. Or that our recliners come in multiple sizes to fit all body types. We could also mention that Stressless® is endorsed by the American Chiropractic Association. But none of these things adequately conveys what the Stressless® line is capable of. There is only one way to understand the feeling of total and utter luxury. You have to sit in one. Then you will know what Stressless® living truly is: the perfect fusion of support, beauty and function. Because when it comes to comfort, we are uncompromising.
